

› Let AlumaSafway help you access new heights.

With a commitment to safety as our foremost value, AlumaSafway delivers the broadest range of services, products and solutions — with the greatest depth of expertise — to the commercial construction market.

Aluma Systems Forming & Shoring

Delivering the broadest range of concrete forming and shoring solutions, including wall, slab and climbing formwork, shoring systems and edge protection, Aluma Systems has improved on-site productivity by 38% and reduced pour cycles by 40%, so you can build, faster, safer and smarter.

Scaffold Solutions

Delivering the broadest range of scaffold solutions — SafLock, Tube & Clamp, Sectional and SafMax® — supported by the most advanced engineering team in the industry.

SafTran® Transport Platforms

For structures up to 150 feet high. Move crews and materials with lifting speeds of 40 feet per minute. Variety of configurations and wide-opening gates ease handling of large, heavy material. Available in single- and double-mast installations. Designated operator not required.

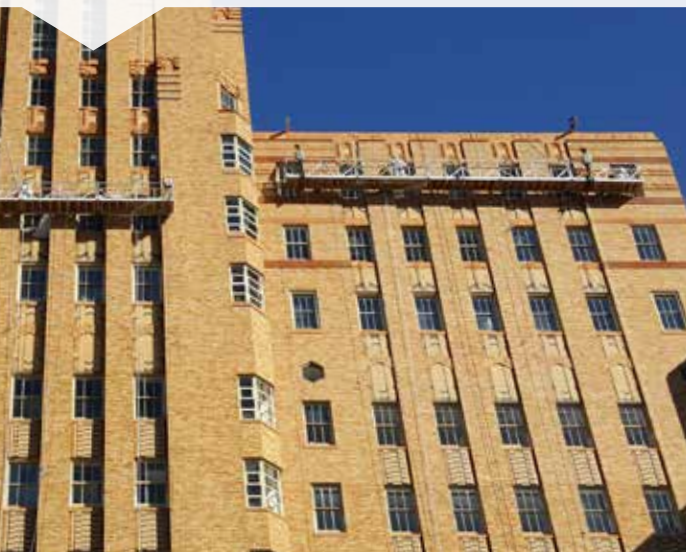

SafCar® Personnel Hoists

Designed for high-rise applications, AlumaSafway's SafCar Personnel Hoists provide lifting speeds up to 298 feet per minute and can transport as much as 8,000 pounds vertically. A variety of configurations and designs are available to ease the handling of large, heavy objects.

Spider® Powered Suspended Access Solutions

The clear leader in powered suspended access solutions, Spider offers traction and drum material hoists, work cages and baskets, modular work platforms, rigging equipment, and fall protection systems.

QuikDeck® Suspended Access System

Provides factory-floor-like working conditions. Build in the air or on the ground and hoist into place. Assemble from basic components, easily handled by one person. Requires no special tools or skills. Can be leapfrogged and relocated to reduce equipment costs.

HAKITEC® 750 Protection Systems — Temporary roofs, shelters and buildings

Protect assets, equipment and structures or create a barrier from the weather. Safe, quick and easy to erect using modular components. Cover large, wide, uninterrupted spans and fit almost any shape and size, including pitched and polygonal structures.

AlumaSafway provides access and industrial service solutions with turnkey installation, engineering support and safety training.
