

SmartTag™

A Smarter Approach to
Access Tag Management

Managing, tracking, inspecting and reporting on access equipment, materials and usage are key to jobsite efficiency. SmartTag, AlumaSafway's cloud-based Access Tag Management technology, streamlines all of these processes for improved productivity and cost optimization.

At Work For You™

SmartTag™ | Drive tag management at the tag, not the office.

Through SmartTag's web-based application, you can manage your scaffold and access equipment on-site via your computer, mobile phone or tablet. Scan, track and log scaffold age, status, usage and milestones in real time, while gathering valuable metadata that can be used to increase efficiency and safety.

Aluma SAFWAY

Reduce on-site fleet, days standing and unnecessary charges

- › Visual reporting with GPS imaging and marking
- › Available formats include pdf, xls and txt
- › Customizable notifications, such as text and email, for on-site activity
- › Materials tracked at the site, project and tag levels
- › Custom aging search for tear-down planning

Get real-time answers to your scaffold management questions

- › Where is my access equipment?
- › Where are my scaffolds?
- › What does it look like?
- › What status is it?
- › When was the equipment inspected?
- › What are my rental costs?

AlumaSafway offers the broadest range of access and industrial solutions with the greatest depth of expertise.
