

Rope Access

Reaching new heights

AlumaSafway's specialized rope access teams provide the means to reach high elevations and otherwise inaccessible locations in a safe, proven and cost-effective way. Our rope access services can work as an independent solution, be used in combination with conventional access methods or complement a comprehensive and integrated multiservice plan.

At Work For You[™]

› Unmatched Expertise

Highly trained and fully certified by the Industrial Rope Access Trade Association (IRATA), our rope access teams have unmatched expertise. Across industrial and commercial settings, they've logged over 200,000 hours on rope (more than 10,000 of those hours being offshore) with zero recordable incidents.

› Advantages

- › Reduced equipment and labour costs
- › Shorter setup and dismantle time
