FASTER

DELIVERY

**Alliance Refractories by AlumaSafway's in-house expertise and technology can create and fabricate ANY refractory shape within hours.**

Equipped with the skills and knowledge to reverse engineer an existing design or engineer a brand new pre-cast refractory system, our team is ready to support your needs.

**Aluma > SAFWAY™**

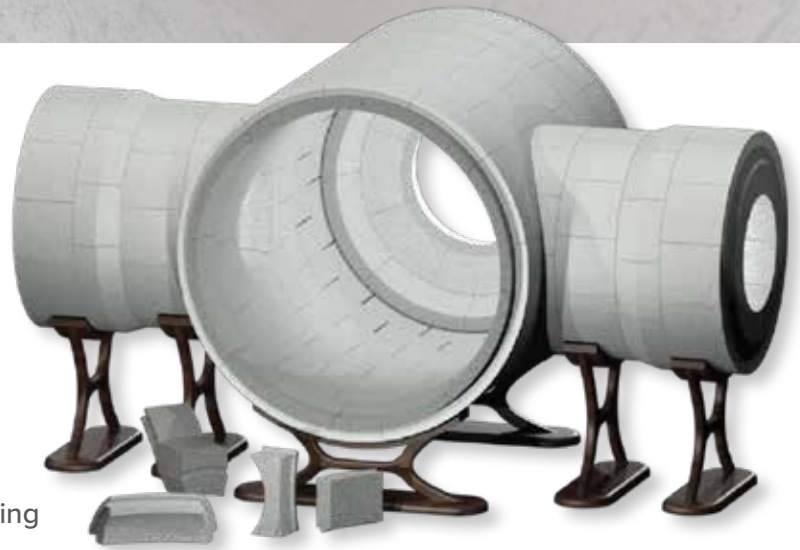

At Work For You™

## > Create Forms Within Hours!

Instead of the days or weeks required using traditional materials and methods.

### > Advantages

- > Shorter lead times
- > Custom-design capabilities
- > No on-site dry out required
- > Drastically reduce downtime
- > Include more intricate details
- > Decrease costs
- > Improve quality
- > Rapid installation
- > 3D modeling
- > Portable laser scanning

### > Precast Refractory Shapes Created Include:

- > Burner tiles
- > Tunnel covers
- > Castable lintels
- > Peep sights
- > Walking beam furnaces
- > Custom shapes

Whether we're designing a multi-piece system or one unique precast piece; Alliance plans the entire process in advance, from demolition to designing and fabrication to installation. Our goal is to reduce downtime and provide a longer lasting solution.

AlumaSafway offers the broadest range of access and industrial solutions with the greatest depth of expertise.
