

Insulation Services

We've got you covered.

› BrandSafway has you covered.

From our unwavering safety standards to our 50-plus years of insulation experience, you can rely on BrandSafway. With our proven quality control, our commitment to industry-leading Environmental Health and Safety (EHS) practices and our skilled craftspeople, who are NCCER (National Center for Construction Education and Research) certified, we deliver the greatest depth of insulation expertise and the broadest range of comprehensive solutions.

↗ Refinery – Texas, USA

“I would recommend your company (BrandSafway) for future projects of any size, especially those requiring multiple services, for your ability to manage these solutions under one project management team.”

– Maintenance Manager

↗ Keephills Power Plant – Alberta, Canada

BrandSafway completed insulation services for over 70,632 square feet in nine months, with more than 58,000 accident-free labor hours. Expert insulation workers were able to reduce the overall schedule, saving significant time.

> Insulation services

- > Abatement – asbestos and lead
- > Aerogel flexible blankets
- > Corrosion Under Insulation (CUI) programs
- > Cryogenic, acoustic and heat conservation systems
- > Demolition/Installation
- > Heat loss appraisals
- > High Temperature Systems
- > Hot/cold protection and personnel protection
- > Inspection/integrity services
- > Insulation and cladding/jacketing for boilers, ducting, piping and equipment
- > Managed maintenance programs
- > Off-site shop facilities
- > Removable insulation blankets
- > Soundproofing and weatherproofing metal jacketing
- > Standing seam panels for coke drums and tanks

Our premium quality insulation materials include:

- > Fiberglass
- > Calcium silicate
- > Foamglass

- > Perlite
- > Urethane
- > Trymer
- > Elastomeric
- > Polyethylene

> Chemical Plant – Gulf Coast, USA

BrandSafway completed a major coating under insulation (CUI) project involving two 250+ foot towers scheduled to be worked on simultaneously. Full encapsulation and containment was required. The project was completed on time, within budget and with zero safety incidents.

> Oil Field Modules – Alaska, USA

“BrandSafway provided safe, efficient and thoughtful service that helped us save time and money.”
– Project Manager

Brand|Net[®]

› For improved Engineering, Estimating, Planning and Execution

Advanced engineering and optimized access are keys to increasing safety, as well as saving time and money. BrandNet, our proprietary software application, utilizes BrandSafway's 100-plus years of access and scaffold experience along with our expertise in engineering to help you increase productivity and lower your total installed cost with:

- › 3D design
- › Project management
- › Planning/Scheduling
- › Geolocation support
- › Estimating
- › Project controls
- › Materials management
- › Customized reporting

BrandNet, together with our team of engineers – the largest and most experienced in the industry – deliver a return on your investment with improved project baselines, advanced scaffold design for safety, reusability and reduced modifications, better materials management, and enhanced visual work packages for field execution.
